Summary

Final-year Computer Science Engineering student with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and Software Development. Proficient in C++, JavaScript, React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, PostgreSQL, and Supabase. Experienced in building scalable, secure, and responsive full-stack web applications through hands-on projects. Strong problem-solving, debugging, and software engineering skills with the ability to learn and adapt quickly.

Internship & Training

Software Development Intern

Brandzup Media Private Limited (Popzo) | July 2026 – September 2026

- Worked on web application development.
- Assisted in requirement analysis, design, development, testing, and deployment.
- Collaborated with cross-functional teams to build and maintain scalable applications.
- Followed software engineering best practices, debugging, documentation, and version control.
- Enhanced problem-solving, communication, and teamwork skills in a professional environment.

Full Stack Development using MERN (Training)

NIELIT Gorakhpur | June 2026

- Completed hands-on training in MongoDB, Express.js, React.js, and Node.js.
- Built full-stack web applications using the MERN stack.
- Learned REST APIs, authentication, database integration, and responsive UI development.
- Applied Git/GitHub and industry-standard development practices.

Projects

EmergencyAid – Full-Stack Emergency Assistance Web Application

React.js, Next.js, TypeScript, Supabase, JavaScript, HTML5, CSS3, Git, Vercel

- Built a full-stack emergency assistance web application using Next.js, React.js, TypeScript, and Supabase with secure authentication and responsive UI. Implemented one-click alert system with live GPS location tracking and interactive map integration, enabling responders to accurately locate users during emergencies.
- Built a secure backend using Supabase Authentication, PostgreSQL, Row-Level Security (RLS), and REST APIs for emergency requests and user management.

Live Demo: <https://emergency-540c9adpg-astha13.vercel.app/>

ResumeIQ-AI – Full-Stack AI Resume Analyzer

React, Next.js, TypeScript, OpenRouter, Mammoth

- Built an AI-powered Analysis tool using MERN Stack, Implemented ATS-Based resume scoring system which detected developer skill gap and keyword optimization
- Provide AI-driven suggestion for resume improvement, Created responsive UI with React & Node/Express.

Live Demo: <https://github.com/kasthaa/ResumeIQ-AI.git>

Skills

Programming Languages: C, C++, JavaScript (TypeScript), Python.

Technologies/Libraries/Tools: ReactJS, Power BI, Git, GitHub, MongoDB, Express, HTML, CSS, NodeJS, AI/ML and VS Code

Data structures and Algorithms: Achieved the status of Knight on **Leetcode** solving 100+ problems

Conference Presentation

National Conference on Virtual Labs – IIT Kanpur May 2025

- Showcasing technical work among researcher and academicians
- Delivered a professional oral/poster presentation on cloud computing with python.

Education

Dr. APJ Abdul Kalam Technical University (AKTU)
Bachelor of Technology in Computer Science and Engineering

Gorakhpur, U.P
08/2023 - 05/2027
